Teaching You The Alphabet

Alphabet learning through photos  
of squirrels and objects

By

Geert Weggen

A photograph of a squirrel sitting on a large, red-capped mushroom with white spots. The squirrel is facing right, looking towards the mushroom. The background is a soft, out-of-focus green, suggesting a forest setting. The entire image is framed by a red border.

After I published my e-book "Squirrels With Black Humor", I contacted my friend Catherine MLP Pagano and discussed my next project, a children's book about teaching children through squirrel photos. Catherine was so enthusiastic about this idea that we immediately started brainstorming. Thank you for all your help Catherine! Amazingly, I already had most of the photos needed for this book; the squirrels have been so accommodating! Wishing you much fun and creativity with this book!

A page full of thankfulness...  
Thank you to all of my wonderful friends.  
I am honored to count the squirrels, like all animals,  
among my friends; including the waters, winds, fires,  
the Earth, the silence and the emptiness.  
I must not forget to include the sun, plants, light,  
spirit, soul, mother, father and all of life.  
I have wandered a road of miracles and beauty  
and I share these wonders with you, as I  
continue my journey of the heart.
